EVENT PROGRAM

Preliminary Program

Forum & Annual General Meeting

Thursday & Friday, September 15 & 16, 2016

Hotel Omni Mont-Royal
Montreal, Quebec

AGENDA

07:00 – 08:00

REGISTRATION AND BREAKFAST

Location: PIERRE DE COUBERTIN, FOYER 1ST FLOOR

08:00 – 12:00

MAJOR FORUM

Location: PIERRE DE COUBERTIN SAISONS A & B

12 :00 - 13:15

LUNCHEON

Location: PIERRE DE COUBERTIN

GREETINGS FROM DR. ERIC MESLIN

PRESIDENT OF THE COUNCIL OF CANADIAN ACADEMIES

13:15-17:10

MAJOR FORUM

Location: PIERRE DE COUBERTIN SAISONS A & B

18:00 – 19:00

RECEPTION

Location: PIERRE DE COUBERTIN SAISONS A & B

Business dress / Tenue de ville

19:00 – 22:00

EVENING PROGRAM

Location: PIERRE DE COUBERTIN SAISONS A & B

Business dress / Tenue de ville

- **DISTINGUISHED FELLOW DR. JEAN ROCHON**
- **INDUCTION CEREMONY AND DINNER**

Thursday, September 15, 2016

08:00-17:10 MAJOR FORUM PROGRAM

SOLUTIONS TO INEQUITIES IN INDIGENOUS HEALTH: WHAT WORKS AND WHY?

Objectives:

- To improve understanding of the landscape and present current science
- To explore meaningful solutions and innovative strategies
- To develop the foundation for a CAHS major assessment

The health of Indigenous peoples' has been stigmatized by negative stereotypes in media, news and research reports which bias our understanding and can be more damaging than helpful. Balancing the negative with positive stories can guide us towards a better future. This year's Forum will look beyond the dysfunction of the past, towards solutions that have had success addressing inequities that exist in Indigenous health. Our goal is to identify key issues facing Canadians and researchers across in the country today and to illustrate how we can begin to move the conversation and research agenda away from a problem-based discourse towards solution-oriented research. Fellows will walk away from this event with an increased awareness of the promising practices that are making a difference in these communities. This is not a profiling of every promising practice and good intervention available today but rather a sampling of projects ranging from HIV to genetics, to medical, health services and policy research. It is a renewed way of seeing Indigenous peoples' potential for improved health and wellbeing presented through the political lens of the federal government; the work of the Truth and Reconciliation Commission and through the innovative research of scientists working with these communities today and into the future. Fellows will reflect on how their research might contribute to improving the health and wellbeing of Indigenous peoples' particularly future generations of Indigenous children and youth.

Thank you for participating in the 2016 CAHS Forum.

Sincerely,

Jeffrey Reading, First Nations Health Authority Chair in Heart Health & Wellness, Simon Fraser University and former Director, Institute for Indigenous Health, Dalla Lana School of Public Health, University of Toronto; and

John O'Neil, Dean of Health Sciences, Simon Fraser University and former Director, Manitoba First Nations Centre for Aboriginal Health Research

FORUM CO-CHAIRS

The Academy is most grateful for the contributions of members of the Standing Committee on Annual Meeting Planning (SCAMP) - **Drs. John Cairns, Gloria Gutman, Carol Herbert (Chair), Chris Naus, Louise Potvin and Johanne Tremblay** - for their wise counsel in the planning of this event.

AGENDA

APPROPRIATE ELDERS AND RESPECT FOR INDIGENOUS PROTOCOL TO OPEN THE MEETING

08:00-08:05	Welcome	CAROL HERBERT* , President
08:05-08:10	Introductory Comments	JEFFREY READING* AND JOHN O'NEIL* , Forum Co-Chairs
08:10-08:35	Greetings	FIRST NATIONS SOCIÉTÉ DU PLAN NORD, QUEBEC NORTHERN AND INDIGENOUS AFFAIRS
08:35-09:30	Keynote Address	CONTEXTUALIZING THE CONVERSATION: WHY ARE WE WHERE WE ARE IN TERMS OF INDIGENOUS HEALTH IN CANADA? <i>Speaker: MALCOLM KING, SCIENTIFIC DIRECTOR, CIHR INSTITUTE OF ABORIGINAL PEOPLES' HEALTH</i> <i>Dr. Malcolm King, a member of the Mississaugas of the New Credit First Nation, is a health researcher at Simon Fraser University, joining the Faculty of Health Sciences in September 2012. In his career in pulmonary research, beginning at McGill University and then at the University of Alberta, Dr. King has developed new approaches to treat mucus clearance dysfunction in chronic lung disease, and is now working on addressing issues in airborne disease transmission, as well as research aimed at dealing with the respiratory health inequities facing Aboriginal people.</i> <i>At the University of Alberta, he served as Chair of the Aboriginal Healthcare Careers Committee from 1993 to 2009; this training program has graduated more than 70 health professionals. Dr. King served as President of the Canadian Thoracic Society in 1999-2000, and from 2000-2004 was a member of the Governing Council of the Canadian Institutes of Health Research. In his role as Scientific Director of the CIHR Institute of Aboriginal Peoples' Health, he leads the development of a national health research agenda aimed at improving wellness and achieving health equity for First Nations, Inuit, and Métis Peoples. His achievements have been recognized by the Alberta Lung Association (1999), the National Aboriginal Achievement Foundation (1999), and the University of Alberta Board of Governors (2003).</i> <i>Brief Q & A for clarification</i>
09:30-10:30	Keynote Address	HEALTH SOLUTIONS - WHAT IS GOING ON ELSEWHERE? <i>Speaker: LINDA TUHIWAI SMITH, UNIVERSITY OF WAIKATO, NEW ZEALAND</i> <i>Professor of Education and Māori Development, Pro-Vice Chancellor Māori, Dean of the School of Māori and Pacific Development and Director of Te Kotahi Research Institute at the University of Waikato in New Zealand. Linda is Principal Investigator on the NPM Project - In Pursuit of the Possible: Indigenous Well-being, an international comparative study of the conditions, strategies, catalysts and meanings that indigenous people employ to realize their aspirations for well-being. She has worked in the field of Māori education and health for many years as an educator and researcher and is well known for her work in Kaupapa Māori research.</i> <i>Linda has published widely in journals and books. Her book Decolonizing Methodologies: Research and Indigenous Peoples (2nd ed., 2012), has been one of the most widely cited publications relating to decolonizing research practices since its publication in 1999. She was a founding Joint Director of New Zealand's Māori Centre of Research Excellence from 2002-2007 and a Professor of Education at the University of Auckland. She is a member of New Zealand's Health Research Council and the Marsden Fund Council, Chair of the Māori Health Research Committee, President of the New Zealand Association for Research in Education and Convener of the Social Sciences Assessment Panel. Most recently she was appointed to the Constitutional Advisory Panel Committee in New Zealand and the High Panel - Science, Technology and Innovation for Development in Paris.</i> <i>Brief Q & A for clarification</i>

10:30-11:00	break	BREAK
11:00-12:00	Plenary with panel discussion	<p>PANEL 1: RECONCILIATION AND RELATIONSHIPS: FRAMING THE ISSUES <i>Introduction & Panel Chair: JOHN O'NEIL*</i> <i>Speakers:</i></p> <ul style="list-style-type: none"> I. 08:35-0840

ACADEMY DISCUSSION

Friday, September 16, 2016

09:10 10th ANNIVERSARY INTERNATIONAL LECTURE

08:40-09:15

THE CY FRANK LECTURE

Recognizing leadership & commitment to advance academic health sciences through the development or incorporation of evidence based practices that make substantial improvements to the health care system.

INTRODUCTION BY JON MEDDINGS

THE PROMISE OF THE HEALTH SCIENCES IN THE 21ST CENTURY – A REVISIT

ALAN BERNSTEIN

Alan Bernstein is a world renowned health leader, researcher and mentor. He made important discoveries in stem cell and cancer research, publishing more than 225 papers. His work on the KIT gene is classic, still often cited, and is the basis for important advances in cancer therapy. Dr. Bernstein received his Honours BSc in Mathematics and Physics from Innis College, University of Toronto in 1968, receiving both the Innis College Award and the James Loudon Gold Medal in Physics. He completed his PhD at the University of Toronto and completed postdoctoral research in London at the Imperial Cancer Research Fund, where he first began working on retroviruses. Dr. Bernstein is President and CEO of the Canadian Institute for Advanced Research.

09:15-09:20

ACADEMY DISCUSSION

09:20-09:55

THE PAUL ARMSTRONG LECTURE

Recognizing leadership & commitment to advance academic health sciences through academic service and innovation at local, national and international levels and achievements that are truly extraordinary.
